Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4 & 6-8, drawn to a highway bridge structure, classified in class 14, subclass 3.
 - II. Claims 9-20, drawn to a vehicle weighing device, classified in class 177, subclass 132.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the structure claimed in group I can function as a simple highway bridge; since no weighing sensor is in these claims, then obviously such a sensor is not needed for the intended use of this device. The subcombination has separate utility such as a deck for a vehicle weighing device.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

2. Newly submitted claims 1-4 & 6-8 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: since applicant

has removed all references to weight measurement in these claims, claims 1-4 & 6-8 are simply claiming a structure of a bridge, not a weight measurement device.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-4 & 6-8 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Conclusion

3. Claims 9-20 are allowable over the art of record.

4. This application is in condition for allowance except for the following formal matters:

Applicant needs to cancel the claims draw to the non-elected invention.

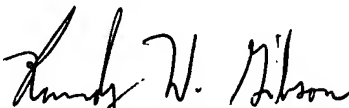

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
